Published 2024

The only complete book published about the Robin Hood Powder Co. at Swanton, Vermont. This hard-bound book tells the story of how the company started in Winnipeg, Canada.

It started from one man's dream to develop a superior smokeless powder that could compete with the large ammunition companies in the late 1800's and early 1900's.

Pictures and information of all the ammunition, booklets, and products produced by the company are included in this book. Also included are important references and information for collectors of this now-valuable and very highly collectible merchandise.

There are over 250 pages of historical information, pictures, and data on all the company's products they manufactured. The book is of interest to collectors, families of workers, and historians.
